

**Phase 2 of the District Sanitary Sewer Infrastructure Televising and Inspection is set to begin on August 24, 2021.**

**Residents will receive two notices prior to work beginning near their homes.**

**First Notice will be delivered 1 week prior to work beginning.**

**Second Notice will be delivered 48 hours prior to work beginning.**

The contractors that will be performing the work in Newport are as follows, Equix Integrity SE, Concrete Conservation, and Nerie Construction.

**The work is scheduled to take place during the following days and times.**

**Monday- Friday from 7:00am to 4:30pm**

We would like to thank you in advance for your patience while this project is underway. If you have any question or concerns about this project, please contact Professional Utility Services, the District's Operator at (281) 324-9803 or you can contact the contractors directly.

**Equix Integrity S.E.**

Mario Chavez (Project Manager) (346) 802-1634

Ryan Albanese (Crew Leader) (346) 802-1647

**Concrete Conservation**

Steven Stewart (Operations) (281) 570-5061

**Nerie Construction**

Jason Nerie (281) 996-5551

Please see the attached samples of the notices that residents will receive at their homes prior to work beginning.

**ATTENTION PLEASE DO NOT DISCARD – ONE WEEK NOTICE**

***Sanitary Sewer Phase 2 Television Inspection Project No. 120-12261-000  
Harris County, Texas***

Dear Residents,

Equix Integrity SE is a contractor hired by the Newport Municipal Utility District to clean and televise sewer lines in your area. We will be working on and off residents properties from the hours of 7:00am to 4:30pm.

In order to complete this work we could possibly need access to sewer manholes that may be located in your front or back yard.

There will be 2 different kind of vehicles on site from Equix, a CCTV Camera truck and a Large Jet/Vac Combo Truck. The combo truck is a rather large vehicle and will be making semi-loud noises as we clean and vacuum sewer lines. As we clean these sewer lines there might be strong odors that will come up from your toilets or drains. This is normal and should clear shortly. However, we do ask that you keep your toilet seats down to minimize the smell.

There will be 2 sub contractors assisting with work in the area. One will be Concrete Conservation performing manhole inspections. They will be driving around with a large pick up and will be dropping a camera down the manhole to perform inspections. The second contractor will be Nerie Construction. They will be assisting with raising manholes that are underground back up to grade and possible excavations. They will have a few pieces of equipment including a pickup, trailer, mini excavator, etc.

We are passing out these notices as a professional courtesy to let the residents know that we will be in your area between the dates below:

Our crews will be onsite between \_\_\_\_\_ to \_\_\_\_\_ between the hours of 7am-4:30pm, Monday through Friday.

For further information, please feel free to contact the employees below:
