While on the website you can sign up for text and email alerts to receive the most up to date District information.

Clarifier #1 Rehab at the WWTP

Effluent Pump Station Rehab Project

Completed Facility Projects

The Board approved Wastewater Treatment Plant Clarifier #1 Rehab project began on June 1, 2020. The contract was awarded to Sustanite Support Services and was completed on April 4, 2021. The work consisted of replacing the Clarifier Mechanism including the Bridge pier, Scum Collection, all Baffles and weirs. The total of the project was \$376,000.00 and was funded by a previously approved bond.

Current Ongoing Projects

Effluent Pump Station Rehab

The Wastewater Treatment Plant Effluent Pump Station Rehab project was awarded to LEM construction. Work began on April 12, 2021. This project includes replacing the Effluent pumps that were damaged during Hurricane Harvey with submersible pumps, and relocating the MCC panel to an elevated platform raised above the flood level. The project should be completed in March of 2022. This project will be partially funded by FEMA.

Aeration Improvement Project

The Wastewater Treatment Plant Aeration Improvement project was awarded to Sustanite Support Services. Work began on this project in February 2021. The scope of this project includes replacing the Aeration control valves, the Dissolved Oxygen (DO) sensors and the DO analyzer. The scheduled completion of this project is September 2021.
