

# Newport M.U.D.

## District Newsletter

At the January 2021 Newport M.U.D. meeting the Board of Directors approved several large projects at the Wastewater Treatment Facility. The work is scheduled to begin in the next few months. The Sanitary Sewer Rehabilitation project was completed in January and Surface Water Treatment Plant Hydro Tank was replaced in December 2020.

If you would like more information on any of the upcoming projects or have any questions for the Board please reach out to us at [www.newportmudtx.org](http://www.newportmudtx.org). While on the website you can register to receive District text and email alerts.

Completed Hydro Tank Project

### **Completed Infrastructure Projects**

The District wide rehab of some of the most critical sanitary sewer lines was completed in January of 2021. Sixty (60) segments of sanitary sewer lines were repaired or replaced. Part of the cost of this project has been approved for reimbursement from FEMA. The District submitted a claim on several of the Critical Lines that sustained damages from Hurricane Harvey.

### **Completed Facility Projects**

A new Hydro Tank was installed at Newport MUD's Surface Water Treatment Facility in December 2020. Over time this type of equipment must be replaced. The District regularly inspects and preforms preventative maintenance on all District assets.

### **Pending District Projects**

The Board approved for work to begin on several large Facility projects at the Wastewater Treatment Facility. The projects include; Replacing the original pumps at the Effluent Pump Station, as well as work on Aeration Basins. The work is set to begin in March of 2021 and should be completed by February of 2022. A portion of the cost of these projects is eligible to be reimbursed to the District from FEMA.
